

# The new ergonomical way of beekeeping in the Vario-Beehive

## Unique features:

- Free-standing beehive on one post
- Handle the hive with both hands while staying in an upright posture
- Lifting the honey super gives access to the brood chamber
- Just one brood chamber on one level
- Fast and uncomplicated monitoring and inspecting of brood and queen cells
- Optimal hygiene and ideal temperatures inside the hive
- No need for picking up and setting aside of supers
- Neither the cover of the hive nor the honey super need to be taken off for checking the brood
- No cementing of smaller spaces by the bees
- Comfortable access to the hive from all sides
- Brood- and honey- chamber each have the same size (19 combs at the bottom and 19 at the top = 38 combs in total)
- The entrances are individually adjustable, dry and protected against wind and weather
- One single comb size in the chambers, covering a total size of 6 m<sup>2</sup> of section for honey (Zander combs 420x220mm)
- Individually adjustable hive using a divider depending on the size of the colony
- Applicable as a big single hive or as twin hive using a vertical division board
- Height-adjustable pane
- Keeps away mice, ants, woodpeckers, storms and thefts
- The bees feel at ease in the sphere of the Variohive

**The ideal bee space for any beekeeper caring  
about his own health and condition**
